

CONSTRUCTION ALERT

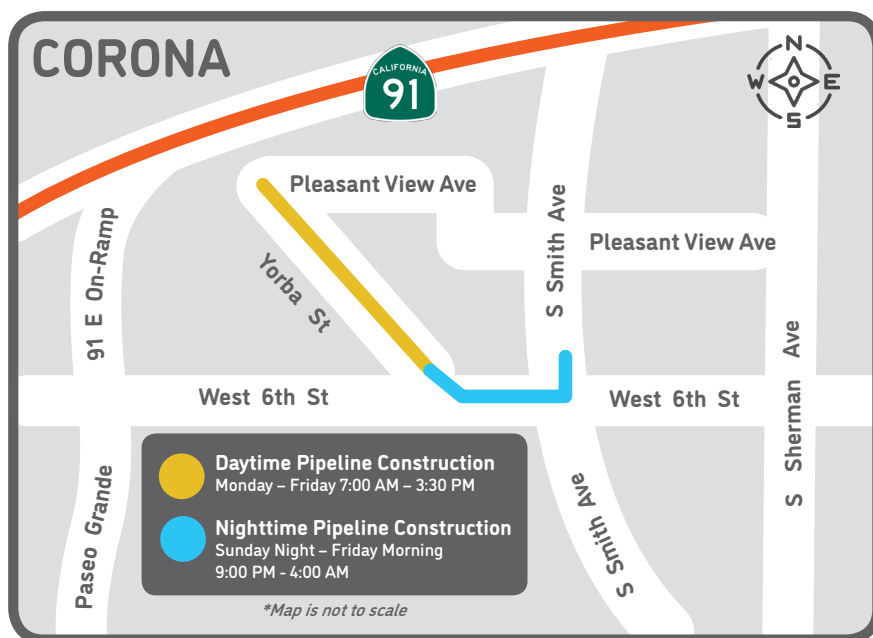

Sixth St. and Yorba St. Water Pipeline and Road Improvement Project

Construction scheduled to begin January 2020

The project involves upgrading approximately 1,200 linear feet of water pipelines, including water service connections, fire hydrants and other associated work. In addition, the contractor will resurface the asphalt pavement in Yorba Street from Sixth Street to 200 feet south of Pleasant View Avenue and the asphalt pavement within the work area in Sixth Street. Select portions of concrete sidewalk and driveway entrances will also be replaced.

The project will resolve frequent waterline leaks along Sixth Street, replace aging and undersized waterlines in Yorba Street, increase water reliability and improve the pavement and sidewalk surfaces in the area.

Current Activities

- Nighttime construction will begin mid-January, pending weather conditions, and continue through mid-February on W. Sixth St. from S. Smith Ave. to Yorba St.
- Construction hours are Sunday night to Friday morning, between 9:00 pm to 4:00 am.
- The contractor will observe the following holidays:

Martin Luther King (1/20)
President's Day (2/17)

What to Expect

- Eastbound and westbound lane closures on W. Sixth Street.
- Lane closures at southbound S. Smith Ave and Yorba St.
- Parking, crosswalk, sidewalk, bike lane and driveway restrictions on Sixth St. and S. Smith Ave. (See posted signs.)
- Lighted work areas
- Noise/dust/vibrations
- Final pavement, sidewalk and driveway repairs will be conducted in Spring 2020.

FOR MORE INFORMATION

Project updates will be provided to the local community, or you may contact us through one of the following methods:

- Office Phone: (951) 736-2266
- E-mail: Publ.Wks@CoronaCA.gov

Please be advised that traffic delays are to be expected. Plan accordingly by taking alternate routes to avoid driving through the construction zone and allowing more travel time for anticipated traffic delays.

Please use extreme caution near construction areas, vehicles and equipment at all times. We are committed to completing the project as quickly as possible; this timeframe could change due to inclement weather or other unforeseen circumstances.

Thank you for your patience while we work to improve our water distribution system.
