

Project Completion Summary

- Project Title:** Sixth Street and Yorba Street Waterline Replacement and Pavement Rehabilitation - Project No. 2018-05
- Location:** Within West Sixth Street between Yorba Street and South Smith Avenue and within Yorba Street between West Sixth Street and Pleasant View Avenue.
- Description:** Installation of 1,200 linear feet of 12-inch ductile iron pipe waterline to replace aging and undersized steel pipe with a frequent leakage and repair record. The new waterline provides reliability and enhanced fire flow capability to the potable water distribution system. The project included paving 34,560 square feet of failed and failing pavement and correcting drainage issues in Yorba Street.
- Schedule:** Construction started January 2020 and completed August 2020.
- Project Cost:** \$ 733,805.91
- Funding:** 75% Water Utility Fund
25% Measure A Fund
