BOND ESTIMATE SHEET

(Use for Improvements Other than Grading Work Only)

Description of Improvements Construction Cost Performance Bond Both *Fill in as appropriate Note 2 Note 2 (Round up to nearest (Round up to nearest) (Round up to nearest)				DATE:	
Description of Improvements *Fill in as appropriate Construction Cost Note 2 (Round up to nearest \$200) Note 3 Note 4 Note 5 Master-Planned R/W (Public) Improvements Interim Improvements (not including Grading Work) On-Site Public Improvements On-site Non-public Improvements Additional Bond Improvements (beyond typical) NOTES: Additional Bond Improvements (beyond typical) NOTES: All construction cost estimates should be attached to this form, and shall include publicly maintained landscape & irrigation. Performance Bond Estimate shall be calculated at 130% of the estimated construction cost, to include Engineering, Contingencies, & Planning. The 130% is the estimated total construction 1 Labor & Material Bond Estimate shall be 50% of the calculated Performance Bond City staff shall review all estimates and may change the amount of the engineer's estimated bonds. A current title report shall be submitted for bonding purposes. PREPARED BY: Engineer's Name & Signature WET STAMP & DATE					
Improvements 2 Master-Planned R/W (Public) Improvements 3 Interim Improvements (not including Grading Work) 4 On-Site Public Improvements 5 On-site Non-public Improvements 6 Additional Bond Improvements (beyond typical) NOTES: 1 All construction cost estimates should be attached to this form, and shall include publicly maintained landscape & irrigation. 2 Performance Bond Estimate shall be calculated at 130% of the estimated construction cost, to include Engineering, Contingencies, & Planning. The 130% is the estimated total construction 3 Labor & Material Bond Estimate shall be 50% of the calculated Performance Bond 4 City staff shall review all estimates and may change the amount of the engineer's estimated bonds. 5 A current title report shall be submitted for bonding purposes. PREPARED BY: Engineer's Name & Signature WET STAMP & DATE			Construction Cost	Note 2 (Round up to nearest	Labor & M Bon Note (Round up to \$100
3 Interim Improvements (not including Grading Work) 4 On-Site Public Improvements 5 On-site Non-public Improvements 6 Additional Bond Improvements (beyond typical) NOTES: 1 All construction cost estimates should be attached to this form, and shall include publicly maintained landscape & irrigation. 2 Performance Bond Estimate shall be calculated at 130% of the estimated construction cost, to include Engineering, Contingencies, & Planning. The 130% is the estimated total construction at Labor & Material Bond Estimate shall be 50% of the calculated Performance Bond 4 City staff shall review all estimates and may change the amount of the engineer's estimated bonds. 5 A current title report shall be submitted for bonding purposes.
