

Project Completion Summary

Project Title: Foothill Parkway Widening from Teddy Bear Lane to Tamarisk Lane
Project No. 2014-07

Location: Foothill Parkway from Teddy Bear Lane to Tamarisk Lane.

Description: Construction of this project completed the widening of Foothill Parkway to its ultimate width between California Avenue and State Route 15. The street improvement portion of this project included widening this section of Foothill Parkway from two lanes to four lanes; construction of new landscaped medians with drought tolerant plants; construction of new sidewalk, curb and gutter, retaining wall, and LED street lights; extension of interconnect conduit to California Avenue; and completion of storm drain improvements.

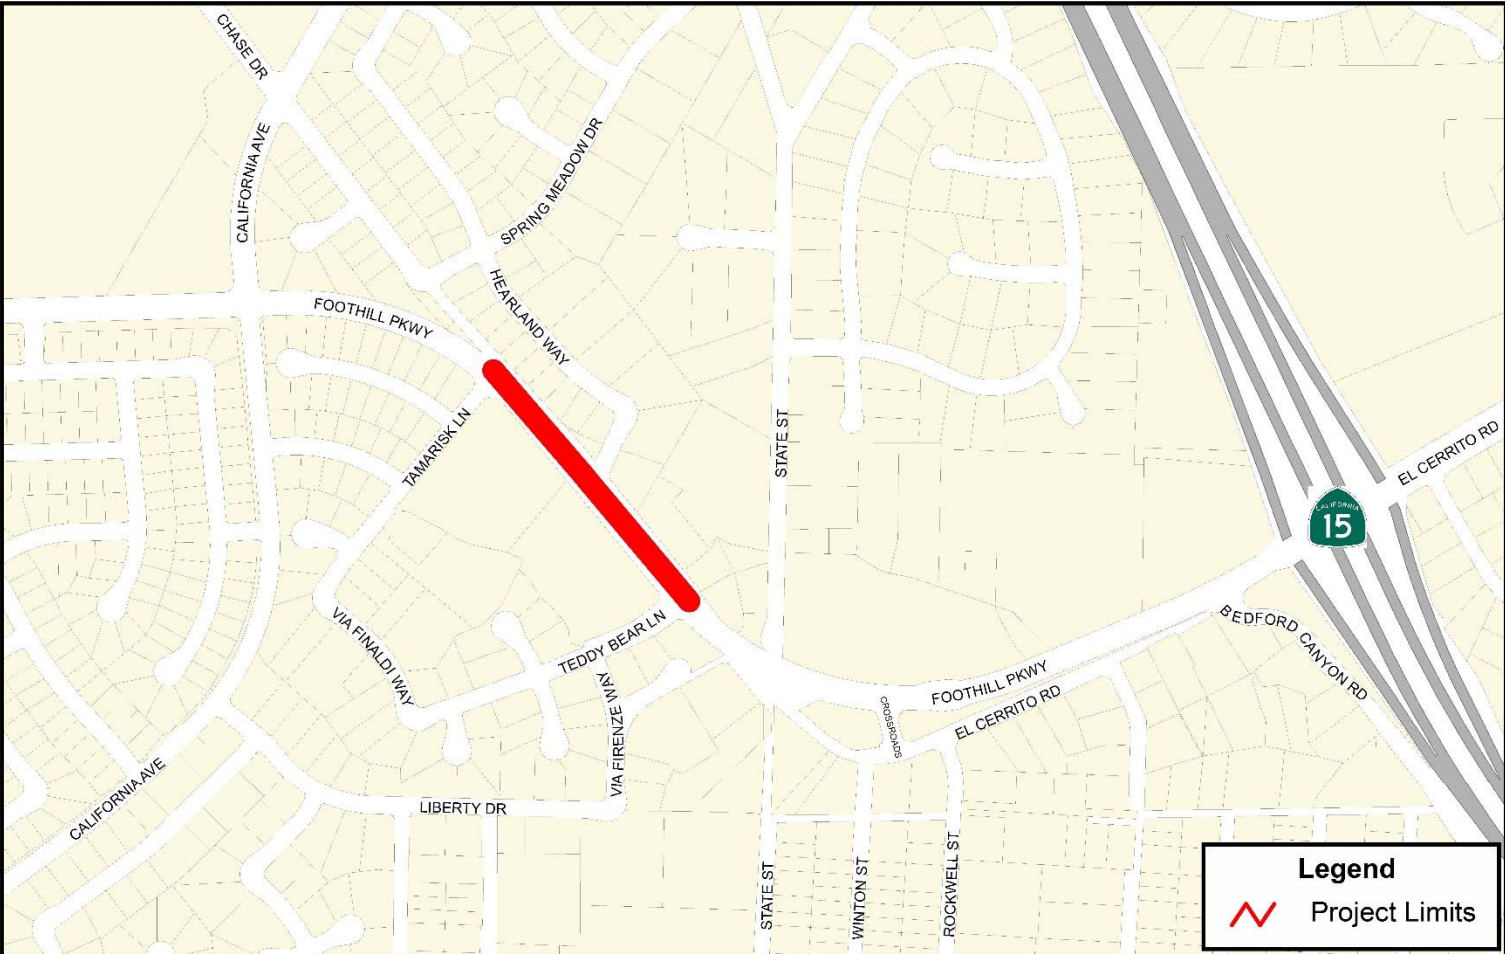

Schedule: Construction started in October 2016 and was completed in March 2017.

Project Cost: \$ 1,794,786.63

Funding: Measure A; Thoroughfares Facilities Fees; Streets, Bridges & Signals Development Fee; and Water Reclamation Utility Fund.
