Water and Wastewater Utilities Improvement Project

CONSTRUCTION NOTICE

The City of Corona began a wastewater and water infrastructure construction project in early December 2017. The Water and Wastewater Improvement Project is needed to enhance local wastewater and water services and increase system efficiencies.

The Project Includes

- New 10,400-foot **sewer** force main pipeline located in Foothill Parkway and Bedford Canyon Road.
- New 3,300-foot **waterline** in Bedford Canyon Road.

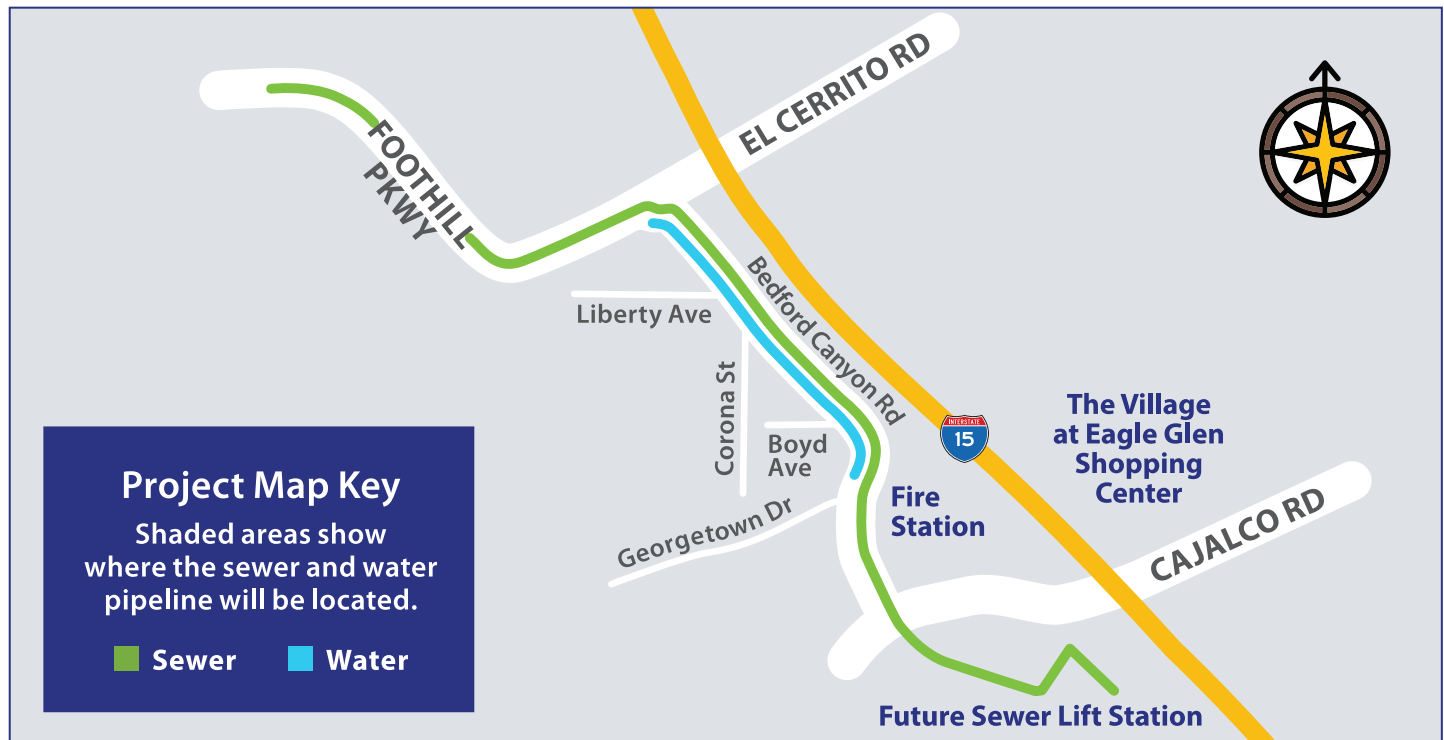

CITY OF
CORONA
THE CIRCLE CITY

The Water and Wastewater Improvement Project will enhance local wastewater and water services and increase system efficiencies.

PROJECT BENEFITS

- Enhances local wastewater and water services
- Increases system efficiencies
- Provides additional water capacity to fight fires

Why Is This Project Needed?

The new water pipeline will upgrade the water distribution system to provide additional capacity to deliver fire flows. The sewer force main will transport sewage from the new sewer pump station in the Arantine Hills Development to the City's sewer system north of Foothill Parkway. The project is one of a series of utility improvements to enable the City to decommission Water Reclamation Facility #3 (WRF3) and consolidate wastewater treatment in the City's remaining two larger wastewater treatment plants to optimize operations, achieve long-term cost savings and to serve new customers in south Corona.

What You Can Expect

Please expect lane closures, detours and parking restrictions near the work sites during construction activity. Bedford Canyon Road will be closed to thru traffic during nighttime construction. Temporary traffic control will be removed daily prior to morning traffic. Mail and package delivery is expected to continue unhindered during the daytime. Local and emergency access will be maintained at all times.

LANE CLOSURES & DETOURS

NIGHT-TIME WORK

NOISE

Lighting will be required for nighttime work and noise is to be expected from construction activities.

Schedule and Work Hours:

Overall project
Dec. 2017 through
summer 2018

Work on Bedford Canyon Road between Foothill Parkway and Georgetown Dr. begins December through March. Crews will perform the work at night from Sunday night through Friday morning – 8 p.m. to 4 a.m.

The City of Corona **APPRECIATES** your patience and support while we make these important infrastructure improvements.
